## BE A PART OF THE REAL-TIME REVOLUTION!

From **April 26-28, 2021**, RTC will bring you 3 full 16-hour days packed with an exciting roster of speakers and dozens of sessions highlighting real-time innovations across industries. This year, our conference theme is **The Rise of the Metaverse: Merging Physical and Digital Worlds**.

The real-time revolution is quickly opening new horizons for animation, architecture, automotive, collaboration, design, fashion, manufacturing, production, retail, sports, work – even magic.

**Learn** from other industries sharing their real-time tools and triumphs. **Gain a deeper understanding** through presentations and one-to-one conversations with innovators. **Move from planning to implementation** by discovering strategies for implementing real-time workflows. **Explore** how real-time is transforming society and culture. **Share** your strategies and innovations and get immediate relevant feedback (in real time!). **Collaborate** in cross-functional teams in discussions and real-time live demos.
